This instance is administered by Rusty (rusty@darksocial.party), and I block users and domains as I see fit. This is not a free speech haven! There are plenty of other servers for that. It's a friendly, mutually respectful space that I hope everyone can find welcoming and fun. If you find any harassment or abuse here, please hit report or toot @rustyk5@darksocial.party and I will deal with it. User registration will be open for probably a couple hundred users, maximum. Also there's every possibility I will accidentally delete everything sooner or later, so please don't make this the center of your online social universe. That said, have fun!
