The instance

This little beast have the following specs :

Two truly dedicated Xeon E3 core (yeah, truly, nobody on it, pinned !).

8 GB of RAM (nom nom).

Hosted in Luxembourg, in Root's Datacenter (BuyVM.net <3).

Debian 9 under the hood.

Voxility's Anti-DDoS to protect us.

Good uptime (We still need to shutdown a bit to apply updates, sorry)

Strong server security, very good HTTPS.

Hourly Backups !

The admin

Hoi, this is me, Technowix, I'm a IT student at Paris, feel free to follow me to get updates about the server / randoms stuff on my tought.

I'm also helped by Thog, if I'm not around, he can make my work .

If you want to help me fund the instance, this is a link to my liberapay page, I detail everythings about the fees.

But still, future or actual niu.moe resident, you rock ~ \(_ _ \)
