Goals and Rules

The instance has multiple goals, the most important of all being making everyone on here feel as safe as possible. Other goals include letting users manage their social life easily and securely, making this instance a nice community with a shared expression space, and making the fediverse better.

As such, we have a few rules we'd like everyone on the instance to follow :

Acting in any of the following ways will get you immediately suspended

Posting illegal content is, well, illegal. This server is in France. As such, heinous content, nazi propaganda, underage porn, and all other content that is illegal according to french law is forbidden.

Posting LGBTQIA+-phobic, whorephobic, sexist, racist, antisemitic, and islamophobic content. You can still discuss such topics, by including a CW, quotes, and a context.

Making public, by screencapping or copying, private or direct messages that the author didn't want made public

Taking part in targetted harassment

Posting spam, advertisement for a commercial product, etc

Being a techbro or Richard Matthew Stallman

Acting in any of the following ways will get your post deleted and you'll get a warning. After three warnings, you'll be suspended.

Posting pornographic images/videos or nude pictures without marking them NSFW, or posting them on the public timeline

Being clearly disrespectful towards another user

Being an asshole

Right now, the only admin and moderator is @wxcafe. This might change in the future, and will be reflected on this page. Please report any content breaking the rules highlighted on this page using the report function. We don't hesitate to moderate posts, to silence and/or suspend users, local or remote, and instances. In France we like to think of this as "Censure Communautariste".

Technical Informations

This server is run on a server paid for by @wxcafe, hosted on Vultr. The server is a 4GB RAM, 2 vCores, 60G disk VPS. It costs \$20/months, and is financed using Patreon

The bot @server_status posts information about the status of the server every once in a while, be it graphs about the ressources, number of users and toots, etc...

More

Feel free to contact me for more informations at the email address in the right sidebar, or directly on Mastodon :)
